There is free assistance from the UNiv NH cooperative extension service to help towns with their Nat resource inventory plans (NRI) . LCC agreed that we would apply for said assistance, maybe in concert with Lyman and Landaff if those CC's are interested. RP to contact both town's commissions.RC will look at printing out the maps on the wildlife action plan website that cover Lisbon.
5. Any other business: MR reported that the schools may well be interested in working with us on the NRI project. He has contact names for RP to contact. Suggest having those educators come to our Jan mtg along with a conservation commissioner Judy Tomas, from Bath who worked on Bath's NRI to talk to us about their experience
