

LCC minutes.

Feb 19th, 2015

Present: Rosalind Page
Skylar Boutin

Absent: Robert Cook

1. Minutes of Jan 15th mtg. approved SB/RP
2. No new correspondence to respond to. Newsletter was rec'd from the NH DES Drinking Water and Groundwater Bureau, with interesting articles about private well testing. This might well (no pun intended) be something that the Conservation Commission could look into providing a resource for homeowners who wish to have their well tested. (may be a flyer/ notice in the Main St newsletter?) Discuss at next meeting.
3. RC not present, so no further report.
4. The Planning board was held immediately after this meeting, so SB and RP decided to introduce themselves in person and observe the Planning Board processes.
5. Other business: discussion about Earth Day in April RP received input from Bethlehem CC who have been running such an event for several years. Suggested dates in May, due to weather concerns in April. They shared their protocol list, which we reviewed. Decision made to approach Select Board to get input and permission from them. RP to follow up. SB did contact Lisbon Regional School "PAWS" to see if they typically have any events that we can tie into. They are willing in principal to help out.
6. Next meeting Thurs March 19th, 2015 at 5:00 pm.
7. Meeting adjourned at 5: 45 pm

Two handwritten signatures in black ink. The top signature is a cursive name that appears to be 'Rosalind Page'. The bottom signature is a more stylized cursive name that appears to be 'Skylar Boutin'.
