Item One: Lisbon High School students are working on elements of the Natural Resource Inventory. We are awaiting an update on progress from Pauline Corzilius, science teacher at LRHS.

Item Two: RC is writing the Annual Report Letter to be included in the Town of Lisbon Annual Report. The letter will highlight projects and efforts undertaken by the LCC in 2016.

Item Three: RC proposed creating an informational handout for Town Meeting. It was agreed that we will use a question and answer format. MR suggested that all members write a draft to bring to the next meeting and we will do a group edit and cut and paste to create a final draft. Rob will provide a wildlife survey page that will be part of the hand out.
