

**TOWN OF LISBON**  
**Request For Proposal**  
**Transfer Station Baler**  
**Re-Noticed**

The Town of Lisbon is seeking proposals for a new High Density Extended Stroke Vertical Baler for baling plastic bottles, tin cans and aluminum cans. Baler must have a 6 inch or larger cylinder bore which will produce a 60" x 40" x 30" finished bale. Baler to be modified to accept a in feed chute attached to the door which allows depositing material eliminating the use of the pull down feed opening guard.

See Diagram below.

Proposal must include delivery of new baler, disconnection of existing baler from power source, removal from property of existing baler, installation of new baler including securing the baler to the concrete floor and electrical hook up of new baler making it ready for use.

All proposals must include delivery, removal and disposal of the Town's existing baler, and installation of the proposed new baler, to include any required modifications for installation.

Proposals should be in the form of a not-to-exceed lump sum amount and must be submitted in a sealed envelope to:

"2016 Transfer Station Baler Bids".  
Town of Lisbon Transfer Station  
46 School Street  
Lisbon, NH 03585

Sealed proposals must be received no later than 4:30 pm **Friday, May 27<sup>th</sup>, 2016.**
