

Conservation Commission

Nature for the Future

November 16, 2020

Dr. Sigmund Hudson
6332 San Bonita
Clayton, MO 63105

Dear Dr. Hudson:

The Lisbon Conservation Commission would like to thank you for your recent assistance with the Natural Resource section of the Master Plan. You provided historical context, conducted research, and filled in gaps in our knowledge that only someone who has been caring for Lisbon's environment for over forty years could. What a great gift you have given to our town and its natural and historical resources.

Including information pertinent to the Conservation Commission's commitment to Lisbon's natural resources and the long-term conservation goals in the Master Plan will help secure them well into the future. There is more work ahead, and the town must approve this section at the town meeting in March, but we are one step closer.

The Conservation Commission would like to offer you commendation and this letter of appreciation for taking the initiative.

It is citizens like you that make Lisbon such a wonderful place to live.

Sincerely,

Betsy Stead
